

WANT YOUR GUESTS TO ENJOY THE OUTDOORS? REACH US!

Mosqitter is an innovative mosquito trap that lets you eliminate mosquitoes in an area within a 164-ft radius.

Create a network of devices to cover any territory and manage all devices from one administrative panel.

A new and improved control menu will help you configure the device precisely for your needs.

With our mobile app, you can manage your Mosqitters, and receive important service notifications.

Free of chemicals

Mosqitter does not produce any toxic fumes and is completely safe for your guests and the environment.

Weather resistance

Mosqitter is built to withstand precipitation, high humidity, and different temperatures.
